I spent two precious years of my life at Raath Mahavidyalaya, and they were the most enriching and transformative years for me. It was here that I grew from being a student to becoming a teacher. Their dedication to teaching and personal growth made all the difference, and I always felt at home in that environment.

Had a good experience at Raath Mahavidyalaya, where teachers shared valuable knowledge with the students.

Students were provided with information related to schools.

How to identify students' weaknesses in schools was also discussed.

We gained various kinds of experiences from the teachers at Raath Mahavidyalaya.

Nothing

College hostel facilities are have to be improved. Also transportation facilities should be provided to the students.

All is well. Bus facilities necessary, for students.

Teaching methods should be projective

Planing before taking classes .

At present, I don't have any specific suggestions. Considering the circumstances in which Raath Mahavidyalaya is functioning, it is doing very well. Moreover, the people there are continuously working hard to take it forward.

Library books update regarding syllabus or future preference

Some more resources are needed like ICT related

Proper ground maintenance

Increasing the numbers of books or magazine in library.

Keep the college clean and green ☺

More improvement in toilet facilities

शैक्षिक वातावर अद्वितीय

Raath Mahavidyalaya, Paithani, is doing a great job, but there's always room for improvement. One idea could be to offer more workshops and practical sessions to help students gain hands-on experience.

Already on peaks

Projectors should be used in the teaching process.

In the college, knowledge should be provided according to the students' needs, such as addressing issues like students not being attentive in class, and how to attract undisciplined

students towards the curriculum.

No

Good facility for students make brilliant

Everything is best.

No...its perfect

My personal is suggestion is there is a road Street which are going towards our college I want to be repair the road that's will be excellent work for a college in future

More development of Infrastructure

Infrastructure, better hostel facilities

To make Raath Mahavidyalaya, Paithani even better, I would suggest introducing innovative programs that focus on emerging technologies and industry trends. Additionally, enhancing infrastructure, such as modernizing classrooms and libraries, would create a more conducive learning environment. I would also recommend establishing industry partnerships to provide students with practical experience and job opportunities. Furthermore, promoting student engagement through clubs, events, and mentorship programs would foster a sense of community and support.

Lastly, enhancing support services, such as counseling and career guidance, would ensure students receive comprehensive support throughout their academic Journey.

Thank You!

I am sports teacher of the SURMOUNT ISchool gorakhpur u.p

More faculty in physical education

MPed degree have to be started for the better development of students and college.

There should be girls hostel in college faculty

In the college all faculty members are very cooperative, infrastructure is overall well but I think the college should be focus on the ICT promotion, a separate reading room facility, and books availability.

पुस्तकालय में पुस्तकों की वृद्धि करना

More improvement required in library

There should also be M.P.Ed course

Make admission process online

No..

Use Modern teaching...equipment (ict)

Sports facilities should be increase

According to me, Rath Mahavidyalaya has very good education And all the teachers there are very good which is enough to make it a good school but. But still, the playground and hostel there seemed to me the most worrying thing. That is why I would like to fix that the most And minimum hostel charges should be taken from each child because not every child has the capacity to bear such huge expenses for her education.

राठ महाविद्यालय, पैठाणी को और बेहतर बनाने के लिए मेरा सुझाव है कि शैक्षणिक पढ़ाई के साथ-साथ कौशल विकास कार्यक्रमों पर भी ध्यान दिया जाए। कंप्यूटर साक्षरता, संप्रेषण कौशल, व्यक्तित्व विकास तथा करियर काउंसलिंग जैसे लघु अवधि के प्रमाणपत्र पाठ्यक्रम शुरू किए जाएँ, जिससे छात्र वास्तविक जीवन की चुनौतियों के लिए तैयार हो सकें और उनका रोज़गार के अवसरों में भी सुधार हो।
